Slump retention type PCE polycarboxylate

Description

1,Chemistry:

Slump retention type PCE polycarboxylate Based Superplasticizer is the third generation concrete plasticizer which advanced developed from lignosulfonate calcium type and naphthalene type plasticizer.

Slump retention type PCE polycarboxylate is a modified liquid type PCE superplasticizer researched by new technology. It is a green environmental product with good comprehensive index and no pollution.

Slump retention type PCE polycarboxylate is the latest liquid type PCE superplasticizer with slump retention performance developed from PCE superplasticizer.

2,Characteristic:

perfect slump retention performance, good dispensability, high water reduction rate, excellent adaptability with kinds of
